Career Objective

Aspiring Software Engineer with a strong foundation in Java, frontend technologies, and problem-solving skills. Knowledgeable in OOPs, DSA and experienced in collaborative projects and hackathons, showcasing leadership and creativity.

Education

Bachelor of Technology in CSE – JNTUH

St. Peter's Engineering College | CGPA: 9.61/10.0 (till 3rd year) / 2022-2026

Intermediate (MPC): Bhagyarathi Junior College, Hyderabad |CGPA: 9.75 |2020-2022

SSC: Z.P.H.S Suraram Colony, Hyderabad | CGPA: 10.0 | 2019-2020

Skills

Technical Skills:

- **Programming Languages:** Java, Python
- **Frontend Technologies:** HTML, CSS, JavaScript
- **Backend Technologies:** MySQL
- **Others:** Data Structures and Algorithms
- **OOPs Concepts:** Classes & Objects, Encapsulation, Abstraction, Inheritance, Polymorphism, Conditional Statements, Exception Handling
- **Tools & IDEs:** Eclipse, VS Code, Git, Command Prompt, Arduino IDE

Key Strengths:

- **Problem Solving:** Strong programming knowledge in Java with good grasp of OOP concepts and algorithms
- **Team Collaboration & Leadership:** Led teams and actively contributed in hackathons and workshops
- **Social Responsibility & Volunteering:** Active volunteered in National Service Scheme (NSS) and community service programs.
- **Quick Learner & Adaptable**

Experience

1. **Personal Portfolio Website:** Developed a responsive personal portfolio to showcase skills, achievements, and projects with a modern UI.
Deployment: Used Vercel with GitHub CI/CD, integrated with custom domain (Hostinger), configured DNS and HTTPS.
Tech Stack: TypeScript, JavaScript, HTML, CSS, Vercel, Hostinger
2. **30 Days of OOPs Challenge:** Completed a 30-day self-paced Java OOPs challenge covering core Object-Oriented Programming concepts
Created daily Java programs with real-world examples and code documentation for hands-on mastery.
Tech Stack: Java, OOPs Concepts, VS Code, GitHub
3. **100-Days DSA Challenge:** Solved 250+ coding problems in Java with explanations and screenshots.
Created a structured GitHub repository with daily commits, solution write-ups, and clean documentation.
Tech Stack: Java, Git, GitHub, Platforms: CodeChef, LeetCode
4. **Forest Endangered Detection System (IoT Project):** Built an IoT-based detection system using sensors to identify deforestation, smoke, and fire in real time. Presented in hackathons & project expos as an innovative solution for environmental monitoring.
Tech Stack: Arduino, Tilt Sensor, Gas Sensor, Fire Sensor, Arduino IDE

Technical Certifications

1. Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle
2. ServiceNow Certified System Administrator (CSA)
3. ServiceNow Certified Application Developer (CAD)
4. Learn Java Certification – CodeChef
5. Practice Arrays, Strings Certification – CodeChef
6. Data Structures and Algorithms – Infosys Springboard
7. Generative AI Virtual Internship – in collaboration with AICTE & EduSkills (Google Cloud, 10 Weeks)
8. Describe Cloud Service Types Certification – Microsoft
9. ChatGPT for Everyone – GUVI
10. Google Cloud Computing Foundations

Coding Achievements

- | | |
|--|---|
| • CodeChef | • HackerRank |
| – Silver Badge – Solved 250+ problems (Problem Solver) | – Silver Badge – Python (★★★★), C (★★★) |
| – Gold Badge – 100 Days Coding Streak Maintained | |

GitHub Profile Summary

Maintains multiple repositories in Java, Python, and Web Development:

1. **100-Days of DSA Challenge** with solutions & explanations
2. **30-Days of OOPs Challenge**
3. **Portfolio Website** (TypeScript + Vercel deployment with CI/CD)
4. **AI-based Skin Cancer Detection System**

Co-Curricular Activities

- **Topper Medalist** – Secured 1st and 2nd year medals for academic excellence among 1200 peers
- **Poster Presentation Winner** – 3rd place at Tech fest: India's Space Triumph
- **Hackathons & Workshops:** – **Vel Tech University, Chennai** – Forest Detection System using sensors and image alerts
 - **MLRIT Zignasa** – Built MERN stack web app in 36-hour hackathon
 - **BITS Pilani, Hyderabad** – Web Technologies Hackathon (24-hour)
- **Project Expo** – Vishesh 2K24 (MREC College): Presented AI-based Skin Cancer Detection Project
